DESK PLANNERS AND PRODUCT TESTING

Our Desk Planners were born when Covid struck – we needed a friendly and useful way to share a simple method to plan a project, or share some ideas – without even mentioning THINK Tools, and without having to sit next to someone! We started off with a weekly planner – a nice way to plan your week – looking at what you are grateful for, thinking about the bigger picture whilst having space to plan a week!

There are others on the resources page too – just [CLICK HERE](#) Print off – use and share!
