

The 8 Cap Rap

The First ones blue, this is for you
Make a TH!NKing plan, don't forget for
who
You're in charge, show some respect
Blue caps the boss, right left, right left

Next ones white, Facts to delight
Just evidence ok, no guessing right?
If no-one knows or you disagree
Then you'll know exactly what facts
you need

Then comes the red, get your feelings out
Don't be led, it's a release no doubt
Can't keep it in? get some magic potion
Red cap on - share your emotion

Blacks next in line, take care, don't fret
An essential cap to place on your head
Keep it on and get the issues down
Don't let it stick, you don't want to drown

Come on the yellow, this cap you'll see
Contains good stuff and positivity
Benefits, bonuses, things that are great
Get 'em all out, don't hesitate

Ideas abound, no wrong answers,
With the green cap on, be the ideas master
keep on going, you can't think of enough
Enjoy the feeling, the buzz, the right stuff

So gold is the one, what action to take
Just the first step you might make
To keep it going, and start your journey
You're in control, you have power of
attorney

Purples the last cap you wear
With the others, think to whom you'll
share
Fulfil your dreams, avoid a nightmare
With your 8 cap rap, don't get stuck,
take care

- CATCHY CHORUS ! -

With your 8 caps to hand, there are no
limits
Once inside, no need for gimmicks
Gotta recognise your power, your
credentials
Connect with others, unleash your
potential

So keep them to hand and share them
wide
Together there'll be no place to hide -
For negative ninnies - need more
convincing?

Time to join the revolution in TH!NKing
